

Air Emissions Compliance & Process Consultants

Your Total Air Emissions Monitoring & Performance Resource

AMP-Cherokee is uniquely positioned to develop source permitting, compliance strategies and performance/process monitoring advantages for your facility. Effective emissions monitoring is integral with meeting production schedules while performing compliance with environmental regulations. AMP-Cherokee professionals maintain a close relationship with environmental and operations personnel to respond quickly to their needs.

CEM Systems: Design to Certification

From dilution and direct extraction systems to the latest FTIR designs, AMP-Cherokee is ready to equip you with top brand systems that will perform reliably. Proven in harsh industrial environments for maximum uptime and performance, we provide system design, integration, installation and certification of your CEMS.

Call John Kelley at 800.399.6234 for new CEMS, system upgrades or maintenance and repair.

Temporary CEM Systems & Equipment Shelter Solutions

AMP-Cherokee has developed a line of temporary CEM systems and specialty shelter designs for monitoring and process applications. CEM systems are available for long or short term applications. Site-specific enclosures can be fabricated to your specifications or Class Div 2 environments.

Call Tim Zapf at 800.399.6234 to arrange for a CEMS rental or to design a specialty shelter.

CEMS Maintenance and Testing Services

AMP-Cherokee provides CEMS maintenance, quarterly and annual testing, and support services. Call John Kelley at 800.399.6234 regarding your maintenance and testing requirements.

Analyzer and Source Testing Equipment Rentals and Sales

AMP-Cherokee carries a full complement of equipment and supplies for source testing and CEMS support. Our QuickShip service is available nationwide for guaranteed delivery. Call John McKenzie at 800.399.6234 to place your next order.

PEMS ProLogix 60: The Total Predictive Monitoring Solution

For a fraction of the budget of a traditional CEMS, AMP-Cherokee provides a year-round system and maintenance package that includes all RATA & RAA compliance tests, equipment warranties, and field support for true hands-off operation at your facility.

A Name You Can Trust

AMP-Cherokee is dedicated to providing cost-effective compliance, performance and process monitoring solutions. Our collective years of experience and customer satisfaction is your guarantee for all your CEM systems and service needs.
