

Pro-Logix DAS 60

The Next Generation Part 60 Data Acquisition Solution

AMP-Cherokee's all-new Part 60 DAS Pro-Logix is a perfect solution for the Environmental Engineer, DAS Operator, Report Administrator and Process Compliance personnel at your facility.

Environmental Engineer

- No programming required!
- Ad hoc report generation
- Force a blowback
- SQL database architecture
- Manual calibrations
- One-Step user reports for calibration, excess emissions, hourly NOx

Report Administrator

State, local and federal reports generation

Process Data

Displays emissions-to-production (ie., NOx lbs. per ton of steel).

DAS Operator

New generation emissions reporting software designed for the CEM operator.

Realtime emissions display
View alarms

SQL Database

See real-time data for daily calls, 1-minute, 15-minute and hourly data and performance
